
2017 CQWW DX RTTY Contest QRM

DX QRM

FT950 Antenna Opti Bim GP7Dx FD4...**3Z9K**. 73 de...**4Z5KU**. Tnx all for putting up with tenuous contacts. 50W and a hex beam...**5R8SV**. I enjoyed the contest...**7K1VKU**. Thank you for the wonderful contest...**7L4IOU**. I enjoyed this contest. Rig is IC-7600 (100W) and ANT is Dipole...**7N2UQC**. Had a couple of power outages...**8P5ØB**. We had some problems with CAT cable on 20M station causing some time wrong identification of station frequency. Station VY2/DJ7JC was typing ZØ1. We checked it several times. Again we had young team members. They are from 9A7RA to 9A3EFD...**9A1A**. 24.9.2017. At the very beginning I had problems with the CAT cable so I am not sure if all the frequencies were listed properly...**9A3VM**. Many thanks for nice contest. Best 73 de Savas...**9H1AE**. My rig: Yaesu FT-920 and VL-1000 Quadra Linear @ 400W. Ants @ 27m (HF) 2-el Lightning Bolt Quad (LF), Inv Vee DP, Plenty of activity. I was kept busy but propagation to NA except for some West Coast just did not happen this year. Near zero to East Coast and zero to the the Canadian Provinces. My NA multipliers — forget it! Thanks to the organisers and 73 from Borneo to all the participants...**9M6XRO**. FT-897 100W DP DP...**9V1XX**. More than half of my contacts were on 10M (99% JA stations)...**9W6EZ**. Rookie licence issued on 10 mar 2015...**A61EK**. A bit of RTTY DXing was fun :)...**AT3T**. FT-2000D - Hex Beam - ZLP Electronics sound card interface - 150W Fairly good conditions this contest compared to the last few weeks. Unfortunately could not spend much time in the shack on Sunday. Good runs on 15M. Will be back for sure next year too...**AT5M**. HE NAN IN CHINA...**BA9BF**. Licensed on April 12th, 2017...**BI4WOP**. 2015-11-13...**BI8AKT**. Not bad considering the lack of solar flux...**CG6LB**. Lic: 43478 Feb. 26 2015...**CM8NMN**. Running an Icom IC-7300 @ 100W into a Dipole Antenna. CU next year. 73...**CT7AIX**. My first RTTY Contest, 73 Heinz...**DB8AH**. TNX for the Contest. Vy 73 Manfred...**DC9ZP**. Not too bad condx compared to WAEDC SSB with X-Flare...**DDØVS**. IC-7700 Acom 1000 Kelemen Dipol 10-15-20-40-80M...**DD1JN**. 19.03.2016...**DF4JM**. Short but nice for me, please use only as a checklog...**DF6YC**. TRX Kenwood TS-2000X Dipol...**DG1RPU**. Working 40W with Mag-Loop excellent conditions...**DG3IS**. 80M only...**DH1TST**. QRP 5W from FT-817 via tuner Z11 to antennas FD3 off-center-fed dipole 21m long, 8m high on 7-MHz band MFB23 3-band, 2-el Mini Yagi, 11m high on 14- and 21-MHz band...**DJ3GE**. Very poor Condx...**DJ6TK**. TRX: ARIAL-51 SKX SDR, ANT: Dipol...**DK1AUP**. Just a couple of hours...**DK5DC**. K3/10, 5W GPA30. Thanks to the organizers for the contest and all who digged my QRP signal out of the noise. There was neither really time to fully participate nor to set-up the antennas. However, I could not resist and joined just for a single-band QRP entry...**DK7HA**. A guy from our club made a few QSO on other bands when I was at home. Hope you can correct the log so that the other Stations don't miss these QSO...**DLØLK**. Enjoyed it very much. Thanks to all who made it into my log. vy 73/55, Tom...**DL1HBT**. Only a few hours because QRL and family but a lot of fun. Tnx for the points with only 5W...**DL3CB**. TS-590SG, 75W to 2-el. FD4 for all bands, MixW 3.2.02...**DL3SYA**. Rig: ICOM 7400 at 80W, Dipole up 7m only...**DL5KUD**. Had 21 hours fun, TNX...**DL5NAM**. It was a pleasure working the WW RTTY test with my KX3...**DL6ABB**. CU in the next PSK/SSB/RTTY Contest...**DL6DJ**. Tnx for super contest, vy good job...**DL6TS**. Thanks for the great event. Take

care and 73 Klaus...**DL8TG**. Poor conds to OC and AF, but short openings to SA on 10M in the night. IC-7300's FFT-Scope is a great help for fast tuning of RTTY-sigs. I had a lot of fun as every year. See you in 2018 :) 73 de Ron...**DM2RM**. First License 11/2014...**DM5RC**. Licensed July 1st 2017...**DO4EAX**. :-) tnx fer CQWW RTTY contest 2017 vy 73 de thorsten...**DO4TP**. Licenced 10.05.2017...**DO7DOC**. Thank you for the opportunity. 73 and Mabuhay...**DU1AVC**. CQWW RTTY Contest Dated September 23-24 2017. Single Operator Single Band 20m / 14Mhz Low Power Full Name: P'Jay Ryan Fortaleza...**DV1YZD**. Great contest lots of fun from the island nation of Niue this year!...**E6AG**. TX/RX: ICOM IC-718 Anntena Direc. 3-el. CAB RADAR...**EA1EPM**. 73 to all...**EA1HRR**. Fun contest as usual, 20 hours of operation, familiar QRM don't let me more. Tnx all for QSOs. 73s Juan...**EA1XT**. ICOM 7600 dipole DX-B Alpha Delta to hygain avq 14 + expert 1k...**EA2DDE**. Catalonia, new DXCC entity...**EA3FHP**. Asta el proximo concurso...**EA3HKA**. Working conditions: ICOM IC-706 MKIIG, home made dipole for 40 & 80M and also home made vertical for 20, 15, & 10M. This is my first CQWW DX RTTY contest and it really was a nice contest! See you next year...**EA4DXP**. Congratulations to the organizers. The first contest as EA4URL. Good luck...**EA4URL**. My first "serious" contest from my new QTH. Using a SunSDR2 SDR Transceiver, Acom 600S amplifier and Hexbeam. Thanks for all the QSOs...**EA5BZ**. FANTASTIC PROPAGATION ON 10M ...**EA8AQV**. Rookie License: 13 june 2016...**EA8ARI**. Bored contest, I abandoned it sunday earlier morning. cu next year...**EF9R**. Good band conditions on 20M. Great fun de...**EI6JK**. 10M conditions were poor at these latitudes but we made the most we could of a small opening on Sunday. It was great to be able to accommodate a few newcomers in the shack and introduce them to CQWW contesting. All in all an enjoyable weekend, quite casual and plenty of craic!...**EI7M**. ICOM 7400, WIDE BAND DIPOLE, PROLEANT G370...**EU1WW**. RTTY by WF1B Software v5...**EU4E**. TRX: FT-840 40W, Ant: Delta Loop 168m...**EU6AA**. 73...**EU8A**. 73...**EU8F**. LICENCED N730240 11/23/2015...**EW7BA**. Good contest!...**EW7M**. FT-2000, PA-500W (Made in home), Ant: Delta Loop; Vert.; Dipole; 3-el Yagi...**EW8DX**. 73!...**EW8OM**. IC-746...**EX8BN**. First attempt ever for me in this mode! No sleep for a while! I was awake all wend long but not every time at station! I waited end of 1st night to see if i'll still qrv later or not! When i saw my score i wanted to continue till the end! Amazing what you can do with only +/- 90W and single 2-el dxbeam! I missed some easy mults another were not QRV this wend! Tks all for QSO...**F1AKK**. FT-950 - Antenna center fed...**F1RCH**. Tnx for Test...**F4FCE**. Had fun. Propagation not strong but received well sigs from YB, 9M. Nothing received from Pacific area. Nice to make QSO with A44A on 80M! Wintest K3 + SPE 1K-FA Inverted L 80...**F5PHW**. 60W, 4-el delta loop monoband 28 Mhz...**F6IRG**. QRP = hard work. My Comet H422 worked great high up. Dave GØC/GØCER...**GØC**. Just worked a few so not a serious contest entry...**G3LDI**. Good to have 15M open all weekend, missed the 10M opening...**G3LHJ**. Only had limited time to spare...**G3RTU**. A brief entry mainly to work some DX...**G3ZGC**. Hard going with 70W and low wire dipoles...**G4EBK**. FT1000 wid 100W into W3DZZ at 7m AGL. Mostly S&P wid several short runs. Few new stations found in last 90 mins...**G6N**. Did repeat callsign many times if I detected an error but some operators but help was not always taken...**G8GHD**. Just wanted to have a bit of fun,

so entered the CLASSIC class this year. Conditions were not as bad as I had anticipated, and even 10M opened on Sunday evening, which was a surprise. Had a few nice runs too, but missed some calls/countries/States...**GUØSUP**. This is the first contest from my new QTH. Still sorting things out, but now I know what needs to be worked on and must unpack the amplifier!...**GWØKRL**. The propagation is sometimes pleasantly surprising!...**HAØHW**. FTDX 3000, EX14, Dipole...**HA1BC**. ICOM756 pro 100W, 3-el yagi GP-s...**HA6NL**. TS2000 Kenwood / 10-el. Optibeam / Dipol / 300W...**HB9BTI**. Very good contest. FT-991 30W, Mixw 3.105 ATAS 120A mounted on the Bakon...**HB9DBK**. My first CQWW RTTY Contest under my new callsign...**HB9GKM**. Icom 7100, 80M horizontal loop...**HB9ODP**. Poor propagation Trx QSOs!...**HG6IA**. Radio YAESU FT-757. I hope there are better conditions next year...**H18PJP**. K-line 400W SteppIR 3-el @ 75 feet 40M - Inverted Vee 80M - 250 foot loop I was dodging lightning both afternoons. I had to shut down and disconnect quite a few times. Also heavy rain and power outages in the evenings. The very good news was 10M opened for several hours to NA, SA, and EU on Sunday. It rocked! I ran about 80 EU stations. The very bad news was the many Caribbean stations who were missing because of damage, destruction or power loss. Good luck guys. I hope to hear you next year...**HP3SS**. First licensed on 21 July 2016...**HS8JKY**. 73...**HS8JWH**. Very bad propagation and many speedily alligator (that call repeatedly without listening)...**IØYQV**. Rig: Elad FDM DUO 5W ant wire calculated tap 39m long 11m high...**I2BPP**. Just for fun...**I2WIJ**. KENWOOD TS450S ANT: DIP...**I2XLF**. A very good contest, I like it...**I4JEE**. D1WW. I discovered today that is a pirate station. I lost some points...**I5WNN**. TNX VY NICE TEST - IM RTTY IS THE BEST- TNX FOR YOUR JOB VY '73. RIG: IC 7700. PWR: 30/80 W. ANT: 3 EL x 3 BDS 10/15/20 - ENFH 10/80 - INV. V. DIPOLE 40/80...**IK2OVT**. First time with SunSDR2Pro, it was a beautiful experience...**IK2XDE**. Tnx to all! Awesome Race! 73s...**IK2XYI**. Kenwood ts 140 40W Ant windom dangling from the window!...**IK4XQT**. TS-2000 95 W ANT. LW...**IN3OWY**. My first SO RTTY contest. Inverted V dipole...**IQ1GE**. 28-mhz poor propagation conditions. We look forward to a new solar cycle...**IT9NAN**. I saw that the 15M band was open and I started the activity in 15. The rates was very low and I continued to work in 20M. During the night a few stations in 80M. Worked for 24 hours on 36 total. 500W, rigid dipole 10-15-20M and dipole and inverted V for 40-80M. Many connected USA stations. Very happy with the final score. Final rates 46 qso/hour...**IT9VCE**. After 10 years of absence I reactivated my vintage station. Commodore 64 - soft. MbaTor - Modem ZGP TU-170 - Kenwood Ts-440s - Antenna Gp. I did a few dx but it was just great to reactivate the station in rty. Greetings to the next contest in rty. 73...**IT9VXS**. Flexradio 1500 and PA HL300 100W Ant...**IU1BSV**. Licensed on Dec 1, 2013...**IU2BHI**. License from date 21-12-2016 Authorization tx date 22-02-2017...**IU2IGX**. License date 08-13-2015. 73, Alessandro ...**IU4FNO**. Licenza n.5438 12/03/2015...**IU6DVS**. 40W long-wire...**IV3HAX**. 73 from Sardina Island...**IWØUWE**. It's always a great excitement to take part in this contest...**IW1CBG**. Due to health problems I stopped contest before...**IW1QN**. Beautiful experience, new antenna perfectly, big KX3, discrete propagation...**IW9GTD**. Checklog...**IZØAIS**. RTX Yaesu FT-897D & Yaesu SCU-17 ANT 18m end-fed longwire & LDG AT-897 Plus...**IZ3XNJ**. Operated by Amelia (14 yo) licensed 15 June 2016. Details on qrz.com...**IZ5VCI**. Setup: 2-el. Yagi Monoband Vertical on 40m homemade. Much fun from my contest station for this CQWW RTTY!...**IZ7FLP**. CNDX was not so FB, but I enjoyed the contest...**JAØBJY**. I enjoyed the contest...**JAØBZY**. I enjoyed the contest...**JAØGKY**. I enjoyed the contest...**JAØIOF**. I enjoyed the contest...**JAØIXW**. 100W...

JA1AZR. FT-1000 100W 5-el. Yagi...**JA1BNW**. The propagation was way down from 2016 when I made nearly 900 Qs. There was a short opening to NA on late Saturday UTC and EU on Sunday, but the paths were limited...**JA1BPA**. I enjoyed the contest...**JA1EPJ**. I enjoyed the contest. 70 70...**JA1GHR**. This contest was in good condition, so that I could enjoy the wonderful contest...**JA1HFY**. I enjoyed the contest...**JA1JNM**. I enjoyed the contest...**JA1OHP**. FT-1000MP MarkV, dipole + vertical. In the middle of Prague...**OL9R**. First time on CQWW RTTY in SOAB (long time ago I taked part on 20M). I took part because I need U.S. Counties also on RTTY for my County Challenge Toplist and I had plan to take part in Texas QSO Party. Condx was not very good but I worked many FB stations and it was really fun for me in CQWW RTTY so I changed my plan and I didn't take part in TXQP – focused 100% to CQWW. Of course my practice in RTTY is not enough to win, but I hope next year will be better. Unfortunately many times the rate was so low in 2nd radio when I used dual CQ. I don't know why, maybe wrong frq or wrong operator – hi. So usually I used the 2nd radio work with multipliers. After the contest I seen that I missed really many easy multipliers on 20M, some times I can't break the pileup, sometimes I don't hear him, but I dont know why, not in my LOG on 20M CX, 5T (+ zone 35), VR, OD, A9, EY. I heard and not worked with 30+ multipliers...**OM2VL**. TCVR TS-590S, PWR 100W, ANT G5RV...**OM3R**. Yaesu FT-1000MP MARK-5 Field ANT: G5RV...**OM4O**. FTDX3000, ANT LW 41m, PWR 50W...**OM8LM**. Nice Contest. 73 de Pat...**ON2AD**. 30-08-2017...**ON3PH**. TRX: Yaesu FT-950, PWR: 80W, ANT: R8 (Vert) + W8010 (Dip)...**ON6AT**. Made my target of 1 million easily in spite of the garden works thanks to FB propagations...**ON6NL**. Just testing the new tranceiver...**OP3A**. Just some casual S&P in between many other chores at home :)...**OT6M**. First M2 entry in Denmark ever. Unexpected condx with strong signals. 73s Johan...**OJ2DX**. Polish Radiovideography club...**OZ/SP2UUU**. Big problems in getting computer and TX to communicate correctly but finally succeeded somewhat. Of course should have done this before but a lot of impediments did prevent me from trying in the week before the contest...**PA0MIR**. It was mission impossible, because my son S53TM was contesting on 20-M band from the same location with legal power. We used to have PassBand filters on our contest location, but I doubt that it would help much. It was just an experiment, how does it look like...**S51J**. I've got my licence on 26. May 2017, so I was contesting in ROOKIE Single Operator Overlay Category. This was the first contest I've done with my callsign S53TM. At first it was planned to be MS with 3 of us Rookies, with the same license date, but other two had some other obligations, so my father (S51J), decided that I will go Single from our club (S50E) contest location. Since last bad weather left some damage on our antennas for lower bands up on the mountain, I chose 20-M band, with 5-el. Yagi, FT-2000D and legal power 1500W PA. I started on Saturday morning, at 6 only Europe, and here and then some Japan and Asiatic Russia. Then at about 11 from that direction. At 18 no new callsigns. My father decided that at 440 QSOs I've done enough for first day and draw us home. Next morning we got up one hour earlier, hoping that there will be more signals from SE part of the world. But there was none, only few from Japan. But then, when I wanted to turn antenna to USA, at about 10 a lot of Japan signals for nearly 2 hours. But there were also first signals from USA, and I decided its time to turn antenna to that direction. And that was good decision. They kept coming, though there was a thunderstorm passing over our country for nearly 2 hours, till the end. I was mostly doing Run, and here and then S&P, so I caught a few very interesting QSOs all over the globe. I don't know what would happened if I would stay longer as I was, but my father decided that 19 local is late enough for my 14 years of age, and we had to go home. On Monday morning I have to go to school, so need some sleep before HI. Here I must apologise for any inconvenience from my side, I'm not yet familiar with N1MM+ logger and nervousness before the first contest, dit what it did. Father threw me into an "empty pool" saying thanks to the Club, letting me use contest equipment, and to all that had QSO with me...**S53TM**. First licensed 06.7.2016...**S55BA**. 31 check QSO made on 40M. RRDXA club claim invalid. Enjoying FT8...**S56A**. Contesting from a Hotel Room...**SA6MIW**. Elecraft K3 Butternut HF9V @32 m.a.g.l...**SM5FQQ**. 73...**SM5S**. Redo from start? NO! Intended to make a couple of Qs after changing the 40M dipole in my Force C4 using my contest call (SI6V) – after 2 Qs realize I'm on SM6BZV and the dipole has to come down SWR 3. As we should go to our cabin for the weekend, no big deal. But wx not too good so we returned home. Made some Qs on and off, needed to rest the eyes in between. Could hold a frequency "midday" when the big boys were on higher bands – when they came back I was often elbowed away. Well with low power on 40 made me long at least for a rig with 2 VFOs again. In spite of many fruitless CQs I still got a good fun out of it. Thanks for the show. One Q- PA8/DJ7YBV rung warning bells, couldn't get it

better so left it. One station had to try three times before he had zone in his output. 73 Jerry...**SM6BZV**. Radio ANTENA VERTICAL 7-BAND MONOBAND DIPOL 80M 2-EL QQ /20-15-10...**SP1DMD**. Difficult conditions with lots of QSB, but great fun nonetheless!...**ZS2EZ**.

USA QRM

40 and 80 were tough nuts to crack on Friday and Saturday nights. Almost had no EU on Friday night and conditions were only marginally better on Saturday. Looking at last year's logs, we had much better condx to Europe on the low bands in 2016. As a result, while the QSO count is similar to last year our score took a hit. Sunday we missed the morning to attend the Cleveland Hamfest, but saw better conditions on 20 and 15 in the afternoon. As always, a great time and thank you to everyone we put in the logbook. See you in February for WPX RTTY. Doug & Jay KB8O...**AB8M**. Enjoyed my first RTTY contest...**AC8JF**. After having operated FT8 using WSJT-X almost exclusively for the better part of three weeks before the contest, RTTY is a lot of work! I heard a couple of JA on 15 late Sunday afternoon but not strong enough to work. Conditions were not nearly as bad as I expected. It was weird to not hear KP2 or KP4. Best wishes to folks recovering down there...**AD1C**. Licensed 1/23/2015...**AF7NX**. Conditions were good for the contest...**K2AL**. K3 @ 5W, tribander and dipole, N1MM Classic...**K2YG**. Loads of fun using the KX3 and auto RTTY software. I'll be back for sure next year...**K2YGM**. TS590SG, 100W, 1/4WL Vertical, N1MM and MMTTY software...**K3DY**. Had big fun...**K3MJW**. Band conditions on 21 MHz were good for QRP (5W)...**K3TW**. Limited operating time still lots of fun...**K4RUM**. First time to enter Classic category...**K4WW**. Just fun to play a little...**K5OA**. Rookie, licensed March 2016...**K5ROE**. Fun contest! Weather outside was too nice so only part time operation. Had a 186 hour running on 20/15!...**K5ZD**. Great to see 15 open!...**K6HGF**. More multipliers than contacts...**K6NLC**. Worked a few RTTY contacts using KX2 and CW paddle to a 40M wire vertical...**K6NR**. FIRST TIME ON AIR FOR OVER 4 YEARS...**K7ABL**. On 2017-09-24, at 2300 UTC, VO2NS sent his exchange as "599 02 NL." I have submitted the contact as VO2NS sent it to me, even though the contest defines VO2 as LB. Otherwise, band conditions were great with 15M showing some life and staying power. Thanks to all who answered my calls...**K7VIT**. Met my goal of having all the Mono-Banders in the air by contest time just barely. The Flux started at 81 with low A and K indices which made 20 and 15 very useful. 10M was dead most of the weekend with minor flashes from the South now and then. 15M played well for the marginal conditions with limited openings to EU both days. A pleasure to have an open band to JA on each day! 20M was open early and well past sunset with loud signals from EU, AS, SA, NA, OC. While limited openings to AF. 40M was fun with plenty of stations to work. Wish I could have stayed awake longer on Friday night. 80M was noisy but still OK. Need better antennas for DX

on 80/40. The Mono-banders on 10/15/20M work well but for DX contests need to be much higher. Not a full effort as I suffer from headaches since my car crash in 2008, often needing to stop and relax while waiting for the pain meds to kick in to allow me to continue. The weather outside was simply fabulous making it hard to keep my fat old butt in the chair. Station here is an old IC-746, AL-80B at 500W out, 4-el 10M yagi @ 25ft, 3-el 15M yagi @ 30ft, 3-el 20M yagi @ 43ft, and a Dual Band 40M/80M Inv Vee at 39ft. Still THE BEST RTTY CONTEST OF THEM ALL! See you in CQWW DX SSBI...**K7XC**. Just a few hours...**K8LF**. ASSISTED, AS I FORGOT TO DISABLE IT, NOT USED IN RTTY CONTESTING AS WATERFALL IS GOOD ENOUGH FOR ME...**K9CHP**. Fun contest just wish I had more time to devote to it!...**K9GY**. Lost several hours due to coax failure at the top of the tower bands were crowded!...**KA6BIM**. Sat afternoon QSOs were portable ops from NASA Marshall Space Flight Center...**KB5EZ**. 2016-09-09...**KC3HTW**. Wow! 5W and 3-band inverted vee @ 30 feet and my KX2 w/ATU had a blast...**KC5WA**. Operated for 14 hours on 20 and 40M. This is my first contest using this rig on RTTY...**KE0OR**. 2017 CQWW DX RTTY CONTEST...**KE5LQ**. I hope that everyone uploads to LOTW and to here. Operated "Holiday Style"...**KF1P**. CQWW DX RTTY Contest was fun and jammed pack with traffic! Thanks to Organizers and Operators! - GOOD DXING & 73 de Jerome...**KF4QFJ**. Rookie. Licensed 5/18/2017...**KG5THG**. S&P only. No computer. 100% FTdx-3000D RTTY encode/decode...**KG9Z**. NN3RP sent DC as state. Logged it as MD...**KI6DY**. FIRST LICENSED 2016-11-16 NO PC-RADIO INTERFACE JUST HAND MIC AND HEADPHONES HELD TO LAPTOP FLORIDA, COLORADO, BRITISH COLUMBIA, TEXAS, NEVADA, NETHERLANDS, SASKATCHEWAN, GERMANY, PORTUGAL, IRELAND, SPAIN...**KI7IIB**. KX3...**KJ7MEB**. Will be trying QRP next year. Had a blast!...**KJ8U**. 2016-12-22...**KK5JD**. Attic dipole and 12W...**KK7A**. First licensed 11/04/2014...**KM4FLU**. A fun way to spend a weekend...**KO0Z**. Certainly challenging with low sunspots but we did it anyway...**KT7G**. Nice to hear the band open to Europe on 15 again!...**KU2M**. I operated from KU3X with 100W on 20M with the beam pointed to EU...**KU3X**. AMAZING band conditions over 48 hours. First hop was incredibly LONG on 15M which keep adjacent US states out of reach for me. Needed the mults! Great to hear EU on 20M start rolling in to east coast at 1100 UTC each morning. 1200W into my dipoles worked beyond belief: A61EK, A44A, JT5DX, 7Q7WW, YB0NDT in the log - XW1IC could not pull me out. A combo of Running and S&P produced a good score. Let the contest season begin!...**KU4V**. Light effort this year. Looking for some new ones on 80 Sat night, but all I found was that I had RF feedback issues - aarrg! Still, had a nice run in the last hour on 20M...**KX7L**. Did not get to operate the entire contest. Used a new Icom IC7300...**KZ0US**. My first RTTY contest, it was great. Lots of good contacts...**KZ7ZUL**. Moderate propagation, but fun...**N0LEF**. Checklog only...**N0YCY**. 20M dipole at 11 feet...**N1IA**. What a blast. Great to have propagation again! Especially having Qs on 15 and 10M. Even got a couple ATNOs. As usual lots of new learning. Not sure what to do about stations squeezing me out of both sides of my run frequency. Thinking "loud" in the LP category just doesn't quite cut it and narrower filters will just negatively impact my decodes. I know it's just part of the game but moving in condx this weekend wasn't always the answer. As they say, "There's gotta be a better way." Still SO1R here but my construction of the bandpass filters is almost complete. That should add to the RTTY fun. Thanks to all who worked me and a special thanks to the contest sponsor and volunteers. Setup: FT1000MP (w/ roofing fltr and click mods) Homebrew FSK/Audio interface SteppIR 3-el @ 55' 40M2L @ 61' 80M Inverted Vee @ 50' N1MM Logger+ with MMTTY and 2Tone decoders. 73 and CUL, Rich...**N1IXF**. Family came from out of

town and put a BIG squeeze on my operating time...**N5KDA**. Best condx in a long time! Great to see activity 80-10M...**N6IE**. All I can say it was fun and I'm tired...**N6OIL**. Played during the contest for 7 hours or so. Had a great time...**N6XT**. Had nine newbies learn RTTY contesting here on temp antennas after H. Irma...**N8PR**. Logger does not seem to remember how to connect to the radio whenever I start a contest. And I don't usually notice for a while...**N9BT**. Great contest as usual. 10M a little lonely. Had fun. Thanks to all that put up with the peanut whistle. 73 es see ya next year...**NC4MI**. Part-time effort. Was going to operate more but thunderstorms kept me off for over 6 hours on Sunday and a FM broadcast transmitter that decided to have problems very early Sunday morning limited my operating on Sunday morning. Was surprised to work some stations on 10M. Best contact was XW11C on 20 meters Saturday night. Rig: Icom 7800, Alpha 78, TA-33 on 20,15 and 10 and wires on 80 and 40. Wintest worked perfectly with the microHAM microKEYER II. Log uploaded to LOTW...**NF4A**. This is a fun contest with all the activity. 73 de Max...**NG7M**. Ran Flex-6500 barefoot to T-11 LP, 80M OCF Dipole, and 40M Vertical. 10M was horrible. The rest were OK, but 80 was somewhat noisy. I only intended a part time effort, but ended up spending more time than I had planned. This is the first time I got dual decoders working for both Flex Slices with N1MM. It really helped having MMTTY & 2TONE running at the same time. The RTTY Contests are quickly becoming my favorite, other than the 160 Contests. Now if there was a 160 RTTY Contest, I would be in heaven!...**NM9P**. The condx was unexpectedly good especially on 20...**NN5T**. On Sunday 20M was wall to wall with signals, what great activity!...**NQ6N**. Not a lot of time in the chair due to family stuff...**NR4C**. Just a low wire at home right now, so a few points for the club and an (unsuccessful) hunt for VT to wrap up my digital WAS. Ah well, fun playing radio and chatting with the folks in the /r/amateurradio IRC channel while doing so...**NY7N**. 10W & end fed wire...**W0GN**. Thanks for sponsoring the contest...**W1QK**. Lot of fun with 250W and an 80M loop at 35 ft...**W3SA**. Great Contest!...**W4GE**. IC7300...**W4GHV**. I enjoyed the contest using small antenna...**W4WW**. First time using RTTY!...**W4YG**. My faithful FT-817 failed me at 05:30 into the second day. My first catastrophic failure in 28 yrs of contesting!...**W6QU**. Too many other things going on to really work this contest...**W6US**. Propagation good to EU. Nice to work a lot of familiar calls. Tks for the contact. See you next year...**W7LKG**. OCF Dipole...**W7WSV**. This was a part-time effort. Had family in town for most of the weekend...**W9KKN**.

After missing last year due to Geological Society of America's national meeting, it was good to get back at it this year. I dealt with some serious RF issues on Saturday, but managed to make a few QSOs. Sunday was better operating between yard and school work...**W9KVR**. Good to hear those digital tones – and get 'em in the log!...**W9YK**. Licensed many years, first RTTY contest...**WA0TXJ**. This contest is work! Still glad I was here. Considering the point we are in, in this Sunspot cycle I felt conditions were pretty good...**WA1FCN**. OH WHAT A LOVELY RUN IT WAS...**WA3EKL**. GREAT CONTEST! THANKS!...**WA6I**. Remote: TS-480, KPA500, 5-band HEX Beam @ 65 ft., HF-2V vertical 40/80, 80M wire sloper. Fun having 10M come alive for a few Qs on Sunday. Along with South American stations, I worked Max, NG7M in northern Utah and Press, N6SS near Prescott, AZ. 15M was wide open on Sunday to EU, Middle East, SA and Africa. Struggled with N1MM / MMTTY software randomly hanging long on transmit before switching to receive. Spent too much time attempting to troubleshoot this problem without every discovering a solution. Bottom line, the more hours in front of the radio, higher your overall score. So as you can see, cooler fall weather got the better of me. Promise I will be more motivated in upcoming events later this season. Best of 73s de Jack...**WA7LNW**. Only had an hour to jump in, but really wanted to get the log in anyway! Had fun for the few minutes I could play. Hope I helped someone's score for a big one! FT-1000 running 5W to an A3S Beam at 40 feet. N1MM Logging. 73! Steve...**WB4OMM**. Conditions were rough on Friday and Saturday, but they pick up on Sunday...**WE6Z**. This is another remote operation from NX6T in Fallbrook, Ca. This was a weird weekend. I operated as WQ6X remote from NX6T in Fallbrook, although my remote computer was operated from W7AYT's QTH in Concord. Much of Saturday was spent putting up a 3-band yagi @ W7AYT's QTH. Most of the rest of the time was spent operating the RTTY contest. To make things easier for remote operation, I ran a frequency 70% of the time. Things were moving along just fine until 23 microwave connection (to a nearby hill) for fiber internet access was deliberate YANKED - ending the contest for WQ6X. While I operated all bands (80-10M), because 40M was WQ6X's strongest band, I decided to submit the log as a Single-band 40M entry. You can read more about this contest event soon in the WQ6X Contest BLOG WQ6X.Blogspot.Com...**WQ6X**. Lots of fun. Note to myself: You HAVE to learn call stacking!...**WS6X**. Nice surprising opening to the Mideast...**WS9V**.
