DX QRM

Operated from the M/V BETANZOS on the way from Bouvet to South Africa...**3G9A/MM**. FIRST DXPEDITION TO OUTSIDE TA. ONLY WORKED 22 HOURS...**4L/TA7AOF**. DXpedition to Batumi, 4L together with TA7AZC Furkan. Many tnx to 4L6QC Sergo for letting us use his shack...**4L/TA7AZC**. All OPs first licenced in 2017...**4O6ATU**. RIG: K3, Power 50W, ANT: Delta Loop. QTH: Nishi-ku Saitama-city Saitama-pref...**7K1CPT**. I enjoyed the contest...**7N1AZY**. I enjoyed this contest. My rig is an IC-7600 (100W) and antenna is a dipole...**7N2UQC**. I enjoyed the contest...**7N4JXR**. Elecraft K3 100W...**7S5S**. I enjoyed the contest...**8J1ØØEIC**. Again we had youngsters in our team. From 9A7RA to 9A5CDS, all of them are in age between 16 and 21...**9A1A**. Very good conditions on 40 & 80m. We broke our record from last year. Loads of activity on the bands and lot of prefixes. We'll be back in 2019!...**9A7T**. Thank you for nice contest. 73 de Savas...**9H1AE**. My first WPX RTTY...**9W6XEZ**. Glad to be able to hand out the AH7 mult this year. Thanks for the Qs!...**AH7U**. Short openings on 15m. No Print on 40m. Mostly missed the 20m openings. Good while it lasted...**AT5M**. Ham Lic #43478 since Feb-26-2015...**CM8NMN**. Transceiver FT-80C Antena G5RV...**CO8RCP**. CHECKLOG...**CT1AGF**. Thank you all stations for the contacts and points...**CT2JBD**. QRP 5W from FT817 via tuner Z11 via 15m coaxial cable RG213 to antennas FD3 = off-center-fed dipole for 7, 14, 28 MHz used also on 3.5 MHz...**DJ3GE**. FTDX3000, Dipole, 100W...**DJ6UP**. Unfortunately, my participation time was very limited this year again...**DJ6XB**. CHECKLOG ONLY...**DK3GG**. IC-703, K3, 5W, Optibeam 17-4, 40m: vertical, 80m: 4-square. Thanks to the organizers for the contest and all who worked me for the QSOs. This year no longer as TM3T (F5VBT) from my French QTH but from Germany at the QTH of DM9EE. He provided the superb antennas whereas I used my IC-703 and a K3, my standard and proven set-up. I spent most of the time on 80 and 40m. That payed off with a big amount of North American stns. I guess, due to the 3-et Yagi on 40m and the good condx, may be better during the first than the second night. Kept the yagi to NA and neglected the European multipliers. 80m was neither bad with the 4-square. However on 20m, it was difficult to get any real attention which was worth to stay. 40m was so much better that I crossed the 30 hours without recognizing it. I was so hooked...**DK7HA**. Enjoyable as usual. TNX guys...**DLØGEO**. Clubstation...**DLØRD**. Tnx ver nice contest. See you 2019...**DLØVG**. Only 3 QSOs on 15m and 10m, a complete blackout! I hope this is as bad as it gets...**DL1EAL**. 15m single band was really hard work, but who says ham radio operators do not need endurance. Anyway, I managed to work all continents but would have loved to make double or triple number of QSO. Thanks to all who made it into my log. vy73/55, Tom...**DL1HBT**. YAESU FT-897 50W, Dipol 2 x 30m...**DL2PK**. TS-850S, 2 x 19.5M Doppelzepp. Hühnerleitung...**DL2ZA**. Never becomes my favourite mode...

time in contest. Could only operate for limited time...**GM3A**. Made the mistake of trying different software during the contest. Probably was quicker than my normal method, but I made some mistakes and probably logged wrong numbers along the way. Should do better next time...**GM7TUD**. Wow, conditions were better than I expected! Couldn't operate for the full time, but made the most of what time I had. A pity the higher bands weren't open sufficiently, as it meant that 20m was rather full, and finding space to call CQ was hard...**GUØSUP**. Had fun in the contest, the LF antennas worked well but I need to work on my HF one now. Never heard anything on 10m and almost nothing on 15m. Love this mode. RTTY ROCKS!...**GWØKRL**. Poor prop during Saturday with spot act on the noon with OC anc Carib Sunday wrost, no sigs on my RX for long time during the day. Anyway I try 15 QRP this year and we will see!...**H2X**.
