

2018 CQWW DX SSB Contest QRM

DX QRM

40 m, 20 m. .2E0EJZ. First licensed as M6TTZ on 20 May 2017. Upgraded to 2E0WCG on 1 Aug 2018. .2E0WCG. I didnt take part in the CQ WW contest but just gave points. .2I0WMN. License since 2018-02-20. .3Z5A. Thanks for the contest. IC-718, 3el + dipole. .4E1A. Used Kenwood TS-590S Radio, Wire 3 El Beam for 20-15-10 and Vertical antennas. .4K6FO. A couple of hours operation accessing 4O3A station remotely from south Italy. .4O/E73A. Just a couple of hours operation accessing 4U1GSC station remotely. .4U73B. First time I work with high power. Good condition. Unfortunately, on Sunday morning, my antenna was broken and fell, with the strong winds that there were. Precariously install another dipole. See you in 2019 Ruben 4X0T (4Z5FI). .4X0T. Check Log only. .4X4LF. It's a great log and i will use it again. .5P1V. Single wire antenna. .5P9R. At the border of KI89HA and KI89HB, 50km North from Nairobi, Kenya. .5Z4/LZ4NM. Lots of fun, lots of new DX stations!. .5Z4BV. I enjoyed the contest. .7K1JFM. I enjoyed the contest. I have operated in JA2 area. .7K1MAG. I enjoyed the contest. .7L1DST. I could enjoy the good contest. Tnx for a fine contest again. IC-7600, Dipole-ANT. .7N2UQC. I pleasant the contest. .7N4GIB. I enjoyed the contest. .7N4JXR. I enjoyed the contest. .8N1T. 80W, BALCONY ANTENNA. .9A2TX. TS2000x & CP6 multiband vertical. .9A3TU. Ant: Dipole PWR: 50W. .9A5ADI. Nice contest, very different and changeable conndx. I was very tired first night, so I slept over Participate just for fun. Tnx for calling me. Tested legal limit QRO, and find OK, confident. No tech problem except audio recording... FT2K, 1400W, 2el yagi @33m. .9A9R. Travelled once more to TaBertu for the 9H3HZ activation. It was a fun weekend, but could not log 100+ dxcc entities so not very much happy. .9H3HZ. 9M2RHQ 9M2EPX 9W2LUP 9W2NDQ 9W2HGZ 9W2ZOW 9W2DSE. .9M2SDX. i like you contest cqww 2018. .9M2VBC. CUAGN, 73. .9M4CHS. Excited. .9W2BXN. 21 JUN 2016. .9W2DVH. 23 OGOS 2017. .9W2GVR. 22 FEBRUARI 2016. .9W2LRN. 15-08-2016. .9W2SAF. MANY THANKS FROM 9W2VMW OJ03va. .9W2VMW. 4th Join CQWW...I Hope the best Propagation. Good Luck to All Contester CQWW 2018. .9W2VRD. GOOD CONTEST..73. .9W2VWT. Great fun from Muscat. Conditions were "challenging". Had to go QRT for storms. .A44A. 80W and a WIRE DIPOLE PLUS CONDX!. .A65CR. We have introduced new antenna for 75/80m which is phased verticals of 4SQ. It was working successfully to get many multipliers. However the condition from low latitude was much worse than expected. .AH2R. New location and with limited height of Hexbeam antenna (32 feet). Kiran VU2XE. .AT3A. CHECKLOG. .BA4VE. Ant: VERT for 20m, Long wire for other bands. Rig: Zeus ZS-1 Amp: 100W IC-730's PA unit. In 12 times calling after, worked EF8 station, on 40m in the morning here. .BD7OB. CHECKLOG. .BG9HKP. FR4QT call "Out side of Europe" in Contest several times and dates 15m 21.251 14:10h I think is not the spirit of Contest Regards URA Team Leader C31US 73s. .C37NL. Lic. First issued 21/03/18. .CD4PSH. I missed several hours cause job's duties... very loud QRN during first hours after sunsets... the only option: QRT. However, enjoyed it as always!!! See you all next year!. .CO8ZZ. Great but very windy place in the south-eastern corner of Europe. Many thanks to Jose, CU2CE and Guillermo, CU4AB for their big support and the opportunity to use the CU4DX-station. .CR2L. Super Weekend, Radio, Fun and Barbecue! Will be Back for Sure! 73s CR5K Team. .CR5K.

19MAY2016. .CS7AOM. Radio IC756PRO Linear ACOM A2100 Only 1000 W E Antena 6 Element on 21 Mhz I am im Holidays im Portugal but now I Live im Brasil * PT7ZT. .CT1AHU. HAD ONLY A COUPLE OF HOURS AVAILABLE. .CT1IW. Good contest but with windy weather and propagation up and down. Thanks for the points and multipliers. .CT2JBD. Known call signs, and a few new ones, were improving their scores using spread spectrum mode, up to 17kHz. I'm working on the design of a "Distorter", thus giving everyone equal chances. Pre orders are welcome! .CT7/HB9AAP. Many stations despite poor propagation conditions. .CT7ABE. RIG Icom IC-7300 ANT Dipole PWR 100W Bad conditions on 10 this year. 73. .CT7AIX. Just wanted to be in the party! 73 de CX3BZ. .CX3BZ. D4C team has worked a lot in the past months to get the station operational at least on a basic mode. Many hours of telcon meetings, planning, simulations and executing have enabled us to be qrv in the Multi section again. The House roof and structural issues belong to the past. We could focus in one of the planned projects: Antenna stacking. So not only two new towers for the 15m band were replaced but also Momobeam antenna company provided new antennas to be configured in a 2x4el NA and 2x4el EU configuration. We are happy of the results and we plan to extend it to other bands soon. This year the Guest-op team was composed by PX2A, Alto da Serra DX & Contest Station members who reached Cape Verde from San Paulo with 3 different flights. PY2EL Ricardo, PY2LED Fernando, PY2WC Waldir have been a tremendous asset to the core team. Special thanks go to PY2EL to have persuaded the other two guys to come over. Honestly in this leg, many inconvenient by flight delays, luggage lost have happened to 50% of the participants. This confirms how important is to plan an early arrival to a such difficult station in terms of WX conditions. IZ4DPV Max did an enormous preparation and troubleshooting work prior the contest. Moreover, our 160m antenna was found unusable, therefore Momobeam provided a MB1-160V 22m high vertical modified as Inv-L at 29m which was set with 100 radials. We had the feeling to be heard well again so confirming its efficiency. The category was decided on the last minute, also because of the potential missing people due to bad flight service and to a unfortunate surprise happened to part of the team just 1 hr before the contest that let us started with lot of tension and not at ease at all, situation solved on Saturday afternoon only. We are happy of the good teamwork with new mates and of the station performance tough without any automation at all as still in planning. We will keep working hours and hours back in EU to keep up the station and its improvements. Tnx all for the QSO and CU in the CW leg!. .D4C. CeckLog. .DB25ONN. Checklog. .DC2FB. ROCKY / Licence since 2016. .DC5LY. Bavarian Contest Club. .DD1LD. .DF3TE. Checklog. .DF4SR. Thanks to all for the QSO's. Conditions were not the best, but OK. Till next year, UWE DF5BM. .DF5BM. First licenced September 14, 2016. .DF5FS. Only one hour of QSOs, but quite ok for a first attempt. .DG2FDD. Again a wonderful contest. Bad conditions but good atmosphere. 73 to all participants. .DG2JA. Condx in south Gemany not very good on Sunday Is a nice Contest 73. .DG5MLA. TX POWER 90W. .DG6SCP. Target was 100000 Points. .DH0MB. -. .DH1PAL. Better than expected! :-). .DH8BQA. Icom W 20-15m homemade 5/8 trap vertical, 8 radials 40m homemade quarter wl vertical, 2 elevated radials 80m 1/8 wl vertical, 2 elevated radials 73 cu next test de Erwin. .DH9DX. Regarding QRL very busy in case of business trips to YO5/ until Saturday and OZ/ on Sunday/Monday

300 QSOs by S&P in 3.5h shorttime activation with IC-7800, ACOM2000A, Optibeam OB17-4 and 80m and 160m inverted V Dipoles. TNX es 73 es hope to have more time in 2019. CU Mirko DJ1AA. .DJ1AA. few hours only. no fun with my small setup and all the QRO QRMers in EU. .DJ2QV. Sorry, only a short Test for me, but SSB is not my Mode. .DJ6TK. 3rd September 2016. .DK1YH. First licenced 06/11/2018. .DK2MX. Only short time between a wedding invitation and a business trip starting sunday. But used the contest to test the new TS890 for the first time in contest. .DK3HV. VFO transfer by CAT control didn't work always correctly. .DK4VW. lic.date 02.04.2016. .DK5KK. Construction and testing weekend. At least one antenna per band again. Had to debug some RFI issues after being QRO again. I missed a lot of openings due to solder and installation work, but caught at least a nice 20m opening to the West Coast. 10m and 15m not worth mentioning from this place. First time usage of a band scope, which makes checking band conditions or finding a free QRG for CQ a lot easier. Running into a lot of friends on the bands after being 4 years QRT was the greatest of all. .DK5TX. CHECKLOG. .DK5WB. Checklog only please. .DK7RD. LICENSE 2013-06-08. .DK9MOS. Sunday, operating from a German campsite. .DL/PA3DAT. We enjoyed the runs on 20m with the US boys. .DL0AO. TRx. IC-3000, Amplif. ALPIN100, Ant. OB9-5 + Inv V 40m + monopole 80m 73 from the European Space Agency - Operations Centre (ESOC) Radioclub Op. Javier (EA1HEO) Thanks for organizing!. .DL0ESA. Clubstation DARC F19 Wetzlar. .DL0WM. KX3 + wire dipole. .DL1DXA. -. .DL1JPF. In memoriam Rudi DL5MEV. .DL1MGB. Ten Tec ArgonautII, 5 Watt, Magnetic Loop. .DL2DWP. Took part occasionally. .DL2FQ. A complete QSO-Audio recording was done. Thanks to all participants and DL6SEV for his great support. CU on WPX 2016. .DL3SKF. bands were full. No conditions on 10m but 40m was nice. I had fun as usual. .DL4JLM. tnx to Steve, DL6LSM, for hospitality. .DL4LAM. Hardware: FT1000MP MARKV, B26-PA RF2K+, Spiderbeam on 15m Tower, 2x42m Doublet Dipol 10m high, Tuner Palstar BT1500A. During the 48h the Hardware was shared with DL1CG and DL3SKF. A complete QSO-Audio recording was done. Thanks to all participants and DL6SEV for his great support. CU on WPX 2016 Vy 73 de Rolf, DL4SKF. .DL4SKF. Yaesu FTdx3000 / SteppiR / Loop 139 Meter Umfang. .DL4ZA. 80 Watts, Dipole up 7 m, thanks for picking up. .DL5KUD. First night ok. Second bad, third absolut QRM. .DL5SFC. TRX ICOM 756proIII, ANT. .DL5ZB. Made some QSOs after the nightshift. Makes fun but tired thats all. Hope next year for full time contest. 73 Mel. .DL6CT. CU in the next PSK/SSB/RTTY Contest. .DL6DJ. Icom 730, Yaesu FL2100B, Fritzel FB-53 Beam. .DL6SBD. First participation in the Classic category - for sure missed a lot of multis. But nice being called by some of the rare stations. .DL7BC. During a GMA (global mountain activity) I used dl7cx/p with qrp. I hope that is not too be confused because the maintime I was in the contest with dl7cx only. On the end I made the 2 logs together. 73 Olaf. .DL7CX. Kenwood TS-50S, Antenna W-8010. .DL7FUA. Half of the participants ignored the /P in my call. .DL7USW. This year I had to learn that my 40m wire dipole is definitely not good for DX. It is worse than my morgain antenna for 160m/80m. I'll think about a vertical, like in my early amateur radio days. And sometimes strange things happen. Out of a sudden the antenna rotor for the beam forgot to rotate. In this case fortunately I do not have a huge garden with a high tower. My beam is mounted on the roof of my house, the rotor is installed in the attic. So I could unmount it even if it was dark outside, disassemble it and search for the error. It was a little one, the smallest item in the rotor, the setscrew fixing the first cogwheel on the shaft became loose after more than 15 years of operation. At the end an easy fix and I could continue in

the contest after 3 hours. .DL8AAE. Only short time active because I had to go to work...next year longer activity, hi !. .DL9GMN. FT-991A , lw ant. .DL9OLI. Please use as checklog only :-). .DL9VF. 09.05.2016. .DM3BN. Rookie, first licensed in 05. December 2015. .DM3JAN. 23.06.2016. .DM4AB. K3 100W OB11/5 Doublet 2*27m. .DM4EE. To be a part of the CQWW SSB is always a fix date in the calender - til next year. .DM5CQ. Just playing with a qrp-Rig and a portable antenna. .DM7C. Checklog. .DM7MRE. First Licensed 06 May 2017. .DO1MIC. ICOM IC-7400, 100 Watt 80m Dipol UCXLOG. .DO1RWM. Tnx to all HAMS - see u next Contest vy 73 de thorsten. .DO4TP. 11.05.17. .DO7DOC. tx flex6300 titandx. .DO7ES. With 100W only S&P but using bandmap had nice rates 60QSO/h sometimes. .DQ1P. Using a wire antenna and in the middle of babysitting twins, I was happy with the propagation. .DU1VHY. THANK YOU AND MABUHAY. 73. .DU9XL. THANK YOU. GOOD LUCK. 73. .DU9XM. First Licensed 07 March 2017 (Technician) 21 December 2017 (General). .DV1VGX. I really enjoying the contest..73 and Mabuhay.. .DV9CA. ROKIE. .DW9IGT. First to joined the contest. Enjoyed. .DX1ARC. LOG RE-SUBMIT FOR CORRECTION MABUHAY FROM PHILIPPINES.73. .DX9EVM. P.O.BOX 48 SiraCha Chonburi 20110 Thailand. .E20WXA. ATLAS 210X AND DIPOLES, THAT IS ALL MY EQUIPMENT.. .E73RB. Unfortunately some technical issues forced us to change to JFF category (Just For Fun). .E7DX. Fun ten hours of contest ... see you next year. .EA1XT. A lot of QRM and family QRM only a short time for the contest. .EA2CCG. ICOM 7600 dipolo DX-B Alpha Delta o hy gain avq 14+expert 1k. .EA2DDE. Thanks to all the participants and the organizers of this great contest. Working setup FT-817 and irregular delta loop direct to the LDG-Z11. Best 73!! Javi. .EA2GM. CQ-WW-SSB. .EA2XG. Nice contest! See you next year. 73. .EA3BRL. Republic of Catalonia, new DXCC country. .EA3FHP. CQ-WW-SSB. .EA3HWC. Cuschraft A3S for 10-15 and 20 meters Dipole End Fed EFHW8010 for 40 and 80 meters Kenwood TS2000 Interface MicroHam USB III. .EA4BAS. Worked in Olivenza NR Badajoz IM68KQ. .EA4EJR. Educational center. .EA4RCT. Great contest only 100w & Delta loop antenna Big Signal.73 to EA5IJG. .EA5IJG. FIRST AMATEUR OPERATOR LICENCE 24/05/2018. .EA5IUN. Good contest after a time out of radio. 73s Good luck. .EA7HLU. KX-3, Juma1000 linear, zepp antenna. .EA8/EA4BQ. CHECKLOG. .EA8AM. Kenwood TS-830S Dipole Windom 70. .EA8AQV. Ea8deg. .EA8DEG. modo rookie. fecha licencia 27 de febrero 2018. .EA8DGS. Checklog. .EA8TX. TNX QSOS CU NEXT YEAR, 73 DE JESUS EC1KR aka ED1R. .EC1KR. Transceiver Power Antenna Coaxial cable Heigth. .EC4AA. Lots of problems we could not fix during the contest. Albeit we enjoyed very much as always. .ED7P. We are a group of operators who decided to operate during the contest from the Buenavista del Norte lighthouse. It is located in the Tenerife Island (Canary Islands). We used Icom radios and home-made antennas. .ED8G. Farfollas Contest Radio Team EE5T. .EE5T. Friends weekend, radio and good food, paella. .EE5V. EA5RS station. .EF5Y. 20W,MP1C antenna. .EI/OK1NYD. Breaking in a new rig!. .EI4CF. Thanks to all for the points, See you in CQWW-CW from Zone 32 as A35EU. 73. .EI5IX. Good fun, plenty of contacts just not enough time !! . .EI5KG. Condition was much worst than last year. Thank to group members: EI3JE Neil, EI8IR John, EI3KD Mark, and EI6BT Jerry to get station ready. Also I thank everyone for making it into my log. .EI7M. RIG: IC-7300, ANT: GP 27m high, INV VEE, PA-500W Tnx fer QSOs. .ES0DJ. Other EARS members have also operated actively. .ET3AA. 28.05.2018. .EU1ADO. 03.01.2017. . .EU1TL. 73 GL!. .EU1WW. Used FT990 100w + 2x41m dipole. . .EU6DX. Nice test!. .EW2EO. Nice test!. .EW2WW. Tnx fer CONTEST!. .EW4WE. TS-590 HF-37 (10-15-20) Inv.V (40-80)

. . .EW7DK. TNX. . .EW8DX. IC-746pro 5watts. . .EW8G. Certification date 04.10.2016. . .EW8LM. 02.08.2017. . .EW8MZ. Thanks for FB WW!. . .EW8R. Turned out to be difficult to use a call starting with F/... Many stations just heard my home call PA3DCU in their first return. . .F/PA3DCU. Thank you for the qosos and a good training for me. 73s Thierry/F1DHX. . .F1DHX. 80w, vertical antenna. you have to scream a lot in the microphone I need syrup for the throat. . .F1GRH. Je m'amuse toujours avec ce contest. Me si c'est tres difficile de s'imposer avec 100 watts . . .F1ICS. Great experience / wire loop / 600w. . .F1SZP. Very nice contest ! so happy to be on air !. . .F4DBD. Great Week End, as always !. . .F4ETG. SINGLE OP NON-ASSISTED HP 40M with a simple groundplane. . .F4FET. Date first licensed: 22 february 2016. . .F4HQO. Cqww2018. . .F4HUA. 1st license at june 2017 . . .F4HXC. Sunday afternnon, 4 hours 20 min just for the fun. CU next month during the CW party, Lee. . .F5MUX. Just to give some points.... 73. . .F5PHW. Always great fun and pleasure to be part of CQ WW SSB contest. . .F5TGR. FT990 + DIPOLE ANT . . .F6EWX. First used WinTest 73. . .F6GEU. A2RS - F8KGS Multioperator Single Radio All Bands 100W Icom 7300 + 7 element multiband yagi + Delta Loop for 40m + Delta Loop for 80m + Dipole for 160m. . .F8KGS. Poor propagation made it hard running 100w. See you next year!. . .F8OOI. Amazing I have hanged up the inverted V on the tower over the afternoon. had fun for 3 hours Murphy odd with computer. . .FM5DN. Tested repaired amp . . .GOAZH. WEEKEND CONDITIONS GOOD VERY HARD TO FIND A SPOT AS MANY STATIONS OVERLAP ON FREQ SD LOG A GREAT ASSIST TO THE CONTEST. . .G0OFD. SD logging prog. worked well. . .G0UKZ. First time entry - great fun . . .G1MPW. Poor condx jet lag from holiday didnt help, cheers guys. . .G2X. SHUT DOWN FOR 9 HOURS DUE TO HIGH WINDS AND LIGHTNING. . .G3CO. CHECKLOG. . .G3KMQ. Only intended to operate for a short time, but stayed longer. Generally good operating/signals. Fewer Aligators than in the past. . .G3Q. Not much time to play this year. . .G3WW. Nice to see 15m open. . .G3YBO. On 160m 32w above 1850 200 below 1850. Great fun. I only worked each new country once for a change!. . .G3ZGC. Band conditions worse than for many years. I hope the next sunspot cycle starts soon! SD by EI5DI used for logging with rig control this year. . .G4ADJ. NOT GREAT . . .G4ATH. As ever, stations to the East have seemingly very high noise floors while stations to the West can often hear my QRP signal when they themselves are weak with me. Is it only noise floor, or are there other effects?. . .G4CWH. A struggle with 100W and wires but good fun. . .G4DDL. Unable to do much due to shoulder injury from car accident but I found it very busy. I used SD as usual. . .G4DDX. Poor conditions particularly on Sunday . . .G4FKA. Poor conditions, loads of QSB. . .G4IUF. 80m 1/4 wave + Wellbrook loop. Need better rx. Sry if not hear you!. . .G4L. K3, DOUBLET 22M LONG, 8M AGL QSOs AFTER 1620 FOR CHECKLOG PURPOSES ONLY 1st time with a sensible aerial for 40m so added some more QSO beyond the Classic 24hour section. . .G4NBS. IC706Mk2G 100 watts 80/40 trap dipole at 25 feet homebrew 20M vertical. . .G4OZG. If only all those operators were on the band more often!! . . .G6EES. Had a go as a QRP portable. All run from an SLA battery. SD logger worked fine, thanks Paul. Condx were tough with lots of QRM and loud - deaf stns Thanks to everyone worked... See you in the next one . . .G7PVZ. Saturday had some great openings to N/A, had great fun with just 100w. . .G7Y. Just a fun entry. . .G8DX. Just a very brief dabble from a temporary location. . .G8FMC. Excellent contest, very enjoyable - a few East European stations spoiling things with very bad modulation and splatter!. . .G8KEK. Disappointing conditions and high local noise level. . .G8XTJ. Good contest serch n pounce Good number of QSOs short on DX and mults. 4U1A computer programme did not give point. . .G8ZRE.

Enjoyable contest, first single-op single-band entry!. . .G9Y. KX3 and KXPA100 with TA33Jnr for 15m and 20m and Inverted V dipole for 40m. . .GM0BZS. Had a good contest all went well . . .GM0V. Another great contest. . .GM2T. Wild weather in Shetland, but great fun. 73. . .GS7V. Check Log. . .GS8VL. Had to go QRT early in contest. Wanted on family matters. But had fun during my short operating and gave GW to a few guys as a multi. 73 Glyn GW0ANA. . .GW0ANA. Challenging!. . .GW0FRE. Station FT897 100 W below 1850 KHz 32 W above Antenna Quaterwave Inverted 'U' Top Loaded and capacity hat. Fail to Plan, Plan to Fail Very true. Work which I wanted to do on the antenna and feeder to improve its 160m performance and enable it to operate on 80m had not happened. I could not find the radio!! Spare time on Saturday was used to clear the vegetation around the antenna and feedpoint. Finally late that night I measured the vswr at the Radio end of the feeder. It was low but the bandwidth was wider than last year. Not the correct way to test. A dummy load will give similar results. Measure at the antenna feedpoint. I could hear plenty of stations and managed to work VY2ZM as my first contact. Later on Sunday I connected some rolls of wire to the antenna ground point. Then zig-zagged the wire across my garden and down the side of the house. This decreased the bandwidth and reduced the vswr at resonance. With an immediate improvement of stations coming back to my calls. I managed to work some new Countries on 160m. Notably CN0CO in Morocco and EF8R in the Canary Islands. The very strong signal of M6T. Who switched to a low dipole to hear my signal. I was disappointed to miss SO100ZHP. As I helped set up G0ZHP in London. It is a shame that in the UK we are only allowed 32W above 1850 KHz. I decided to finish early as my last two contacts DP6A and SP2PIK could not understand my pronunciation of Victor, Victoria or Venezuela as part of my Call GW0NVN and used X and E instead. I was tired. Thanks to everyone who took the time to work me. Best 73s Simon GW0NVN. . .GW0NVN. Great fun as usual . . .GW4W. Check log only. . .GW8KBO. Part time play with simple wire vertical and two elevated radials. . .GW9J. I had very limited time to work in the contest. . .HA0HW. Rig:YAESU FT2000 PA:HENRY 3K Premier Long John Yagis for 28-21-14MHz and 4 el/3 band Trival Quad for 28-21-14MHz. Lazy-H antennas for 7 MHz (NW-SE/SW-NE)NVIS N/S for 7MHz. Single Quads for 3,5MHz (SW-NE)/NW/SE/ + NVIS for 3,6 MHz (N/S) Delta loops for 1.8-Mhz (NW-SE/SW-NE) / K9AY. for nice contest! Best regards from Hungary! Charlie HA4XH. . .HA3DX. RIG: Ft847 ANT: W3DZZ. . .HA3FMR. Just for a few hours, just for fun . . .HA4UC. TNX for QSO's, DX and 73 for all!. . .HA5DDX. Without double connections. . .HA5KY. First contest operated remotely from my new QTH with a new "second operator"... my daughter Flavia, 8 months old. Sorry IIP was not QRV this year due to not experienced operators and stupid disqualification by contest directors (Yes, we could partecipate but we strike this contest). We will partecipate the ARRL Int's and other contests. . .IT9GSF. Worst propagation in all bands.Hoping better next year.Anyway thanks all stations that i worked during the contest. Best 73's. . .IT9OPR. Like working on VHF! 28 Mhz, bad propagation as now is the rule. Signals very low and Sporadic-E very poor, both Saturday and Sunday! It reminded me a lot of my past operations in VHF, especially in 144 Mhz that suddenly rose to s7/s8 for a few moments, in my opinion just for "the meteoric contribution", like the Meteor Scatter in 2 meters! Excellent TEP (Trans Equatorial Propagation), which throughout the contest has allowed fantastic QSO to 9+10dB with the whole African area. Sunday afternoon beautiful opening to the Caribbean and South America with country and area multipliers! . . .IT9VDQ. Rookie first licensed date 03/07/2017. . .IU1JCZ. A visit from Murphy and no sun spots. Otherwise still fun. Had also some newcomers on site. Hope some will return in the future. .OE5T. Mni TNX fer nice Contest. .OE6XFL. As usual lot of poor Sigs (splatter/wide), looks like the wider the better. .OE8TTR. 2017 . .OE9SEV. Somewhat limited operation with two men and two radios. Propagation was a bit better than expected. We had a good US run on 20m on both days in the afternoon. Unfortunately band died here quickly and we didn't notice any decent over the pole midnight openings. 15m opened to JA on Sunday, probably also to USA but we decided to run on 20m. 10m was spotty, on Sunday there was an unstable opening to Europe. Very few DX here. Low band numbers suffer from the amount of multiplier/spare/non-sleeping operators. 40m was dissapointing, we never got any JA run and only short US run in the Sunday evening. Dupes ... we had lots of them. Totally 430 of them. We had runs where 9 of 10 qsos were duplicates! Guys, our call is not OG6ZF, OG6KF, OG60ZF, OG60KF or something else. OG60F is a special call for the 60th anniversary of OH1AF/OH1AB/OH1F. There is a special award available. Check the rules. .OG60F. I LOST A QSO SATURDAY AT 1019UTC DUE TO COMPUTER CRASH. Again great thanks to the logistics, IT, technical and kitchen crew who made this event possible. They made 30 years of MM contest at OT5A possible! . .OT5A. I had put up a 1/4 gp GP with 3 radials just for fun at my summerhouse and used my old Yaesu FT1000MP Very nice QTH with no manmade noise but was very hard to find any clear freq due to all the very strong EU stations with very high power on the band so splatter was very bad. .OY9JD. We work from EU-125 Island better Result. .OZ0TX. Made a little more contacts than last year. .OZ1KKH. Rig: Elecraft K3/P3 Ant: 80m vert. loop for 160 thru 40M and Hexbeam for 20 thru 10M bands. . .OZ3SM. As usual with QRP the keywords are patience and antennas. Antenna in use is a singleband dipole, ballanced feed with coax, situated high (100ft.) and free. .OZ6OM. 90 watt G5RV, inv dipole 40 meter, TH3MK4. .OZ8AE. BAND CONDITIONS NOT SO GOOD. .OZ8CT. Always nice to kill some spare time . .PA0GJV. Great contest to meet the world and check my equipment. .PA0M. As a CW enthusiast, I gave it a try with the microphone I participated with the FT-817 with 4 watt and an endfed My endfed is sloping down to the east I enjoyed the contest Thank you for the fine activity in the contest. .PA1B. RT6A was very wide and splattering on 15 mtrs. .PA1P. Was fun. Tnx all fr fb qso, 73. .PA2REH. Getting finajjy contestfeeling back after some decades of QRT!. .PA2TMS. TX: ICOM 7300 + Endfed antenna. .PA2VS. Propagation this year was a real challenge. No US stations heard here. .PA3DTR. magnetic loop 50 to 100W . .PA3GEO. Not much time to participate but enjoyed the hours i was active. .PA3HFJ. From my holiday location, Schouwen-Duiveland EU-146 Good activity. Used a barefoot FT847 + FD4 antenna and for 15m a rotary dipole. .PA4EL. Running 400 watt 20m FB-23 beam 40m dipole. .PA7AL. First time. Used the mCHF QRP SDR. .PA7N. Contest Club Ontario. . .VA3MYC. Conditions and propagation was better than expected. Great experience. . .VA3NU. First licensed December 10,2015. . .VA3TTZ. First time contest participation. . .VA7DGT. WOW 1ST QRP ENTRY AMAZING HOW WELL I WAS HEARD !. . .VA7FC. General DX log. . .VA7FFT. Activity was higher and conditions were a bit better than expected. My SteppiR controller died just before the contest so I operated on 15M using my 2 element 40M yagi and on 20M with a quickly constructed sloping dipole off the 80 ft SOAPBOX: tower. This worked OK but a bit frustrating not having the yagi on 20M. Looking forward SOAPBOX: to CQWW CW from Vancouver Island as VE7VR. . .VC3R. Hit and miss. An hour here, an hour there, but still good fun. . .VE1JS. I am not a contest person, my log is a paper logbook. It was fun and your e-mail helped me to upload my few QSOs. 73 Guenther VE2BHH. . .VE2BHH. It was long trip by two different airplanes to Zone 2 one more time... Upon my arrival to Sept-Iles I found that my FT-1000MP has an issue with output power output power was 5 watts only. Attempts to fix it was non-successful. Started to operate in CQWW as a QRP and I must to say that it was a challenge! Condition on 40-20-15 on Sunday vs Saturday was significantly improved from early morning and I was very happy to create pile up operation few times during the contest. No any contact on 10 meters at all this is the North. In 2 hours before end of the contest my US pile-up on 20 meters was completed - some changes in ionosphere happened again... I saw few messages in the cluster. Condition dropped down at the same time. My QRP adventures in CQWW was completed at that time. For rest 2 hours in CQWW I did 2 QSOs only. I should say that it was very unusual QRP operation, however I've enjoyed by CQWW as usually. Many thanks to all who had a patience to listen my QRP calls during CQWW, especially to K3LR, 8P5A, S57AL and M6T, thanks for their very good ears, they're got successfully my calls on 80 meters on 5 watts and it was not easy. Thank you very much to Yuri VE3DZ, Frank VA2FGG and Igor VA3FF for their great help during preparation to this DX-pedition to Zone 2. 73 from North, Igor VE2IDX. . .VE2IDX. Rookie category, licenced in april 2016. . .VE2NCG. Pretty good conditions across all bands for a SFI of 69!. . .VE3CV. Visitors This is one of the Contests we enjoy, working DX as well as our many friends, South of the border. Thanks to our Operators, we beat last year QSOs and Score. Propagation was not always the best and sometimes only one way it seemed but our we were able to pull them out, even though difficult at times. Thanks to everyone that participated and especially to all the DX station, and especially our friends to the South. 73 Rick VE3BK. . .VE3DC. Again, work gets in the way, enjoyed short time on SD works well as usual. . .VE3FTM. March 23, 2017. . .VE3MJD. Despite PC crashing after about 4 hours had fun. . .VE3PN. A temporary antenna a few feet above the ground. . .VE3RCN. First Licensed on 08 February 2017. . .VE3SCN. REMOTE OPERATION. . .VE3UTT. 2017. . .VE3XKZ. Fun to work some DX. Fun to run Europeans on day 2 with LP. . .VE5SF. Had fun with my 600watts thanks again. . .VE6IVN. The 25th running in the same shack and core operators. . .VE6SV. This was my first real contesting effort in many years. I had a lot of fun. Thanks to everyone who participated... we are all winners. . .VE6TN. I had a lot of fun participating in this contest with a vintage IC-720A and classic IC-751A oldie Icom radios. . .VE7BGP. Using 50 MHz yagi on 40. . .VE7DAY. Check log only. . .VE7EME. Gud cdx. New tribander. EU FB ears. . .VE7WVK. Use for confirmation. . .VE7ZZV. These low-sunspot conditions were tough!. . .VE9CB. I had a pleasant time as I was just trying to make a few contacts, test my station, and experience this part of solar cycle I was licensed in 2010. I have not operated much in the past few months and I found it interesting how 20 m shut down around supper time. . .VE9EX. It was good to see how VE9UNB performs in the largest contest of

the year. Brent VE9EX had no success in the first 30 minutes of the contest on 40 m. However, on Saturday Brent VE9EX got the first four QSOs on 15 m. Stephen VE9QLE got the last four QSOs on 20 m and 40 m, which are much harder bands to use at VE9UNB due to the noise. . .VE9UNB. Difficult copy with deep QSB on Weak stations from NA and EU on 15m. 15m Antenna 4 element wide spaced monoband Yagi at 12m, TS-990S Radio. . .VK2GR. Actual TX Power: 100watts. . .VK2HBG. Station TS-480HX @ 200W PEP and 5-band Spiderbeam. I am submitting my log so the VK6 gets credit for my one QSO. Conditions not good in the hours after contest started. Many high power stations hearing each other, very difficult for us lower power stations to be heard. Ionospheric prognosis suggested it would be JA, NA and EU working each other for the weekend ... so gave it away. Looking forward to the CW contest in November!. . .VK2IG. First every entry into this contest. . .VK3BDX. Actual TX Power 100W. . .VK3BSP. Please note that our K3BV contacts (two different zones) are contacts that are probably uniques as i dont believe he operated in the contest except to work us via remotes in East and West coast USA. Please remove these contacts from the log if the committee deem them to be invalid for any reason. . .VK3GK. Great conditions and signals on 40m here. Thanks all for qso's until next year. . .VK3IO. Hi only a casual contester dx'er there were no opening in vk3 on 15m or 10m. . .VK3KTT. Actual TX Power: 100w. . .VK4ATH. Mostly S&P this year with a few little runs at times. . .VK4QH. Thanks for a great comp. . .VK5NS. Great contest - thank you. . .VK6DW. Actual TX Power. . .VK6MIT. Conditions very tough but still great fun and the best DX Contest. Log submitted in memory of Nick VK6VAX. . .VK6RT. Actual TX Power. . .VK6WE. I am sure that RF helps the ionosphere in the absence of sun spots Hi. . .VK7GN. 4Nov2017. . .VK8VWA. Fun entry at the end of our DXpedition. We had a ball in spite of not being heard by many loud EUs. Most fun was listening to the various forms of 'Oh, WOW!' when we called and worked unsuspecting stations S & P! As far as we can tell this was the first ever M/2 entry from VK9X. . .VK9XG. Sun, surf and radio contesting. What more you more can you ask for. . .VP5W. It is a nice experience to participate in this contest. . .VU2BL. Very poor propagation. Hope it will improve for the CW contest. 73!. . .VU2CVS. Experience bad propagation. . .VU2YVK. Date first licenced 01/23/2017. . .VU2ZMK. My licence was issued on 23-05-2018 . . .VU3EQG. It is good experience.I got my licence on 7 Nov 2016 . . .VU3OXH. First licensed on May 10th 2016. . .VU3WBB. This was by far our most productive CQWW contest! Conditions were fairly good from here on Saturday, not quite as good on Sunday. The amp gave up about 4 hours from the end making the last part some tough S&P. 20m continues to be by far our best band but we also had our first contacts on 80m and our best effort to date on 40m. 15m was tantalizingly close to open a couple of times but yielded only one contact. Thanks for all the Q's and especially to those that worked to pull us out on 80m and 40m. . .VY0ERC. Ham radio is fun!. . .WP4I. I only participated to give multipliers . . .XE1AY. Had a great time great,contest sorry i did not have much time for it. . .XE2AU. Great experience with my new equipment with funny things. . .XE2N. Field day CE1ANF. . .XR1B. DXing from Africa is fun, but SSB LP contest not so much. Tnx to all 73. . .XT2SZZ. Very tough condx then someone turned 15m ON. had many XU ops on air. . .XU7AJA. Turning in log to support the other operators during the contest. . .K0MUL. The first 12 hours propagation was in the toilet, everyone was complaining about the poor conditions. Things picked up on Saturday and were pretty good the remainder of the contest. Mine was a 13-hour adventure without setting any specific goal. . .K0RC. I was able to hear many more stations than were able to hear me. . .K1AUS. SkookumLogger K3S KPA1500 OB40-2 2XA-3B-12L wires. . .K1GQ. Who says no propagation?. . .K1JHS. Heard AK, HI and many JA's, nice to have my Windom back up. 73!. . .K1RCT. Very tough condx with few bright spots. . .K1RV. EUROPE HEARD 4 HOURS PRIOR TO LOCAL SUNSET. . .K2RR. Operated portable entirely on batteries in Melfa, Va. . .K2WPM. A minor effort, but a score is a score. Hoped to capitalize on the fresh meat syndrome for Sunday afternoon, but couldn't get any runs going, although the S&P results weren't bad. Condx pretty decent for low spots and SFI. . .K2WR. Date first licensed February 9, 2018. . .K2ZP. RIG: ANTS: 660' CF WIRE - 407'EF WIRE - HEXBEAM LOG: N1MM+ - CONDX: BETTER THEN EXPECTED 73, DICK, K2ZR. . .K2ZR. 05/10/2016. . .K3ABE. K3CCR is the club station at the Collington continuing-care retirement community at FM 180W in

MD, just east of DC. For CQ WW SSB 2018, N3UM and W3GB operated Multi-Two Assisted. Due to family visits and other non-ham obligations we could only do 23 hrs. BIC vs 33 hrs. in CQ SSB 2017, 68% as much time. Even so we got 55% as many Qs and 84% as many mults. Not bad, given that SFI was 84 in 2017 and a minimal 69 this year. On 80 plus 40 m. we made only 6% fewer Qs and got the same number of total mults as we did in 2017, despite S-7 noise on 40 and S-9 noise on 80 the first night. But, on 20 and 15 m. the lower SFI and less BIC time this year meant 406 fewer Qs inevitable. Propagation was good on 20 and astonishing on 15 m. Got 77 Qs in 1.25 hr. after 1244Z on Sun. AM, fast-clicking on EU spots. Unexpected DX on 15 m ZL and FR, plus 6W, 7Q, and 9Q in AF. On 20 m. we worked Ducie, VP6 (!) plus Z2 and XT in AF and 4X and A4 in the Mid East. Also good to Mid East was 40 m got 4X, 9k, A7, and HZ. . .K3CCR. Operated 40-20-15-10 meters with good band conditions. . .K3SOM. "It's always a challenge on 160m SSB!". . .K3TW. If they only could hear me. Discouraging. . .K3URT. Had to cut it short on Sunday due to work commitment, but wanted to get on and greet many friends. Not counting zero-point USA QSOs, I worked 1100 different stations. Six countries provided 45.2% of the QSOs, lead by Germany with 13.6 percent! Thanks! (Although it would be nice to have more activity from outside the core countries.) The figures are that out of 1100 QSOs (net of W/K): DL - 150 QSOs (13.6%) I - 77 QSOs (7.0%) JA - 74 QSOs (6.7%) F - 73 QSOs (6.6%) EA - 63 QSOs (5.8%) & G - 61 QSOs (5.5%). I hope that I have the opportunity to see everyone again next year. . .K3ZJ. 450W. . .K4FBI. 20 meters opened to China/Japan 23:30 Sunday. . .K4KAY. I had a lot of fun working some DX stations. . .K4RG. First licensed Tech 2/13/18, General 5/31/18. . .K4WRX. Line noise east and line noise west, so I gave up after 10 minutes. At least I made an appearance. . .K5RX. First licensed 2016 Feb 29. . .K5TMT. Red Sox going 18 innings definitely reduced my operating time!. . .K5ZD. Worst CQ WW SSB I've ever experienced!. . .K6CSL. Shack dismantled due to big plumbing leak in August. Rebuilding house limited me to 28 hours of op time, but always enjoy the WW Phone action. Looking forward to the CW event in November. 73, Glenn K6NA. . .K6NA. Fair band conditions, but I had limited time to participate this year. . .K6RAH. ADIF TO CABRILLO CONVERTER DIDN'T DO ZONES RIGHT. . .K6YYL. Portable at Lava Beds, Calif. all dipoles at 30ft. . .K7CAR. CHECK-LOG ONLY. . .K7DPS. GOING FOR MAX ENTITIES NOT SCORES, GREAT FUN!. . .K7HV. Good fun at the bottom of the cycle. . .K7SS. Good band conditions. . .K7STO. Antenna used was a vertical dummy load. . .K7TTU. Just sending logs. No score required. . .K7WXK. Well that was interesting. Lots of DX on 15, 20, 40, and 80 Meters. Conditions were pretty good at times with a few moments of solar weirdness. The activity seemed OK with plenty of Rare DX to chase around the bands. Many zones that were not heard of in recent years had at least one loud station representing it. Mostly click and pounce with a new to me Flex3000 that kicks butt for being a 10 year old SDR radio. I put it up there with a K3 for receive and seemingly limitless menu options to tailor it to your taste. Station: Flex3000, AL-80B at 800W, & a Timewave ANC-4 Noise canceler (Worth its weight in gold). Antennas: 4ele 10M at 25ft, 3ele 15M at 30ft, 3ele 20M at 43ft, 40M/80M Dual band Inv Vee at 38ft, 170ft long 160M Inv L at 28ft. 20M was King working 33 zones & 96 countries. Gave me a good taste for whats to come. CW WW DX CW! The granddaddy of all DX Contests. 73s from Northern Nevada. Thank You CQ for Hosting the Best Contests!. . .K7XC. Licensed 03/31/2017. First time working a station on HF. . .K7XTN. This was a good contest, with better conditions than I expected. ZM4T had a booming signal...! Thanks to all on 15 meters. . .K8OZ. First licensed in 2016 . . .K8PK. 40 Ugly - 15 Was Go To Band. . .K8TS. Worst noise I've heard in years. . .K9CJ. Happy to hand out CONTACTS called

many but unable to work with 400w Thanks to all who could hear Inv-V in a tree. . .K9IDQ. Society of Midwest Contesters. . .K9KE. Amazing what a 41' vertical and a tuner can do. . .K9MK. 2018 CQ WW DX Contest / K9ZMI Did the contest for fun. Don't normally submit my contacts but got an email from CQ to do so to help qualify submitted logs. Operated on 160M, 40M, & 15M K9ZMI. . .K9ZMI. Late but for others. . .KA4CDN. Alarm clock failed, missed 4 planned hours great conditions 1st 1/2 Sat night & Sunday were slow. Tnx for qso's. . .KA6BIM. Checklog. Just played around for a couple of hours. . .KA9MOT. It gave me a chance to give the new set up a good workout and see how it performed. Icom IC-7600 80 watts Fritzel OCFD apex at 10 meters. . .N6UBO. Had a great time. looking forward to more contest. . .N6VOH. Checklog-not in con- test, for log checking purposes. . .N7JB. See QRZ.com under my call sign for comments. . .N7MZW. Rookie/Low power/Single

operator. . .N7UWD. I really wish Ham's the world over could understand Victor I had fun. Looking forward to better propagation. . .N7VZU. 1/20/2016. . .N7WJ. K3, KPA1500, KT36xa on 20 and up, 40M2L on 40m and inverted vee on 80m - had issue with rotator loop catching on N tower. . .N7WY. Great contest, more activity this year than last, 10m prop poor again for second year. . .N8GLS. One new country - Greenland !. . .N8PPF. CHECKLOG. . .N8REA. Go MRRRC!!!!. . .N8YXR. Lots of drizzle here, so lots of noise on the bands. . .N9BT. Had a fun time, hopefully have better antennae up for next years contest. . .N9EAT. Only had a few hours to operate on Sunday afternoon. 80M dead but 40, 20, and 15 were fun. . .N9OK. About as good as you can expect for low sunspots. . .N9RV. Near bottom of SSC, low SFI, spells challenge for low power and small low hanging antennas! I felt like I was in a street fight, fighting for each and every Q. I could hear them loud, but they were not hearing me. It sure was a test in character building being CQd in my face all contest long. And the repeats... Still managed to work 71 unique DX at solar min. Always an adventure to see what can be accomplished with low power and marginal antennas! 73 and CU in the CQWW CW. Gene N9TF Rig, K3S 100 watts to 2 elements at 37 feet, 40/80 short loaded dipole at 35 feet, and short 67 foot 160m loaded half sloper at 35' apex. . .N9TF. KWD TS-2000, Alpha-Delta DXCC Fan Dipole at 25ft.! 100 watts & a Wire!. . .N9VPV. Conditions very bad in the mountains of Western North Carolina. . .NC4MI. Flex 6400 and 811H Monoband antennas all bands. . .NC7M. Challenging conditions for QRP from the "black hole". . .ND0C. Had more fun chasing the DXpedition to Ducie Is. . .NE1B. New crew and 3 that have never done a CQWW contest. Fun!. . .NE3F. HAD A BLAST. 15M NOT SO GOOD THIS YEAR TO EUROPE . . .NF3R. After test all I hear is Zulu, Zul, uZulu or Tango, tango, tango for hours!. . .NF7E. Kicked the tires with an RF-KIT B26-RF2K+ LDMOS amplifier. Worked Great!. . .NG7M. 40m was fun. I will be back next year!. . .NJ0F. For log checking only. . .NK4K. Limited operating time. Conditions on 20 M seemed good for very low solar flux. Very quiet geomagnetic conditions, too. . .NM2O. Just a few to say I worked the contest. . .NN4RB. 73. . .NO6G. I thoroughly enjoyed the contest during the few hours I could operate. . .NS7U. Just picked out a few stations to complete DXCC on Phone. . .NX6D. Fun but sure will be glad when band condx improve!. . .NY3C. Great contest and got some new ones. Thank you all. . .NY6DX. Finally got TV cable to house and inside connectors and splitter fixed and no more TVII. Even on high power! . . .W0MN. My log program did not reconize to1j think was martinique 0 points 73 John. . .W0YJT. I am not looking for a score. Just helping other hams with their scores. . .W1ALP. A *little* better than my 2015 entry, but not by a lot!. . .W1DGL. First license date 06/23/2016. . .W1FOY. Licensed 22 June 2016. . .W1HMM. Thank you for sponsoring the contest. . .W1QK. JUST A LITTLE EFFORT FROM HOME BEFORE LEAVING FOR A MULTI-OP IN PA. GO FRC!. . .W2AAB. Condx were terrible, worst in my 27 years as a ham. . .W2CCC. FRANKFORD RADIO CLUB. . .W2DLT. Rig - Elecraft K3, P3, KPA1500 Antennas - SteppIR DB-18 @ 70 feet 80M half sloper, 80 dipole 160 meter "W3ZZ" antenna Hi-Z-3-element steerable array. . .W2GPS. Need a better explanation on Assisted vs Not Assisted. . .W2JDB. Licensed 11-08-2017. . .W2KU. Great fun. Might try QRP next year. . .W2TT. Quit early to attend non-denominational service for Pittsburgh victims. . .W2UDT. Rookie first licensed: March 1, 2016. . .W2XK.

Submitted as check log only.. Was surfing only for dx for DXCC Challenge. . .W3BNN. Finally getting back in the chair again. . .W3PA. Licensed March 23, 2016. . .W3XOX. Totally remote. Ops: N3TOD-Ekaterinburg, RU WS7I- WA, K3ZV-FL, W3UL-MD, W4NA & W4AAW-VA It's just gotta get better! Tnx Qs-Mlts!. . .W4AAW. First licensed 11/22/16. . .W4BBT. We need sunspots! . . .W4DD. A few minutes on this one. . .W4EE. I had fun! That was my primary criteria. 73 de W4EEY. . .W4EEY. Great Contest. Always a lot of fun. . .W4PR. Thanks for the Qs. 73, Vic, W4VIC . . .W4VIC. Rookie 3-26-16. . .W5XNA. What a great contest. Thanks to everyone who makes this contest happen. Operated from San Diego Yacht Club's communications center. Elecraft KX3, PX3, and KXPA100. . .W6BJB. Conditions were pretty good this weekend. Only able to operate 3.3 Hrs. TNX for the Qs. CU next time! 73, JR Rig- TS-450SAT Ant- Due to main antenna down for repairs, ran barefoot using hamstick mobile antennas on my shed for 20 and 40 meters. Antron A99 for 15m. CPU- Dell WinXP Logger- N1MM+. . .W6JBR. W6UE at Caltech is back on the air after 18 months of silence. One antenna is connected, an A3 with 40 meter dipole, but fixed ENE. . .W6UE. Checklog. . .W6UZ. My first CQ-WW -SSB. . .W7AXN. Licensed 03-20-2017. . .W7ZFG. Very, very tough conditions this year. . .W8DC. Just S and P checkiing out new antennas. Right hand in cast. . .W8WA. First licensed in April 2017. . .W8YPV. Our first time operating in the CQWW SSB and the only goal was to get some experience and perhaps get some new ones for the log, including VP6D!. . .W9GRS. Keep on Hmning!. . .W9YK. I HATE CABRILLO. . .WA0ILD. Longest contact I've ever had- New Zealand!. . .WA1BR. Ten tec orion 2, ten tec 238C tuner, klm kt 34a, 160 meter 1/4 wave inverted L (130 feet, # 12 insulated flexweave 57' vertical), 120 radials. . .WA2ALY. What a great year! I heard more stations from more continents around the world than I have heard in a very, very long time! Despite the low sunspot number, hams turned out and it was AWESOME!. . .WA2BFW. Operated remote from Tokyo, Japan. . .WA6URY. Nice conditions after summer dry spell....however, I found myself having to operate S&P the entire contest. Surprised by a nice opening to middle east and my first contact with Palestine, E44WE. Computer power supply problems at my HF Remote site delayed my start by more than 12 hours. What you can expect with electrical upgrades and on and off portable generator electrical power for 2+ months. Appreciated everyone's contacts! See everyone in upcoming contests. 73's de Jack, WA7LNW Station: TS-480, KPA-500, HEX Beam @ 65 ft, wire slopers for 40 and 80 meters, combination of wire antennas for a 2:1 match on 160. . .WA7LNW. I enjoyed the contest! Worked two ATNOS!. . .WA7YXY. Band good! Just not enough time to operate!. . .WB0RUR. Special thanks to W2YC for the use of his stations. . .WB2P. Thanks to W7DXX for the use of his remote. . .WB2RIS. First ever CQWWSSB contest for me. . .WB6ETY. Openings were only to South America / Caribbean as far as I could hear. . .WB8WKQ. Propagation at this location was really bad on Sat only slightly better Sun. . .WB9BWP. Yaesu FT-950 Butternut Vertical. . .WD0BGZ. Only had a few minutes here & there to give out a few Q's 73 from NC Mark WG8Y. . .WG8Y. CQ-WW-SSB 2018 Contest. . .WJ4HCP. I wasn't able to operate many hours, but I had a great time doing it. . .WN3I. Fun, fun, FUN!. . .WN7T. Only had a few hours on Saturday for 10m. . .WO4O. Wires only. . .WT1A. Great contest!. . .WT8WV. DX on 40 and 80. wow. . .WX8V.
